- ★ Expectations

★ **Time for a Change**

- ★ Time tracking has never been so easy – demo
- ★ The game changers: overview key features

★ **Reach for the Stars**

- ★ Releasing the pain points of time tracking
- ★ Transforming industries – our journey of impact
- ★ We love to collect ★

The background is a dark, atmospheric scene of a futuristic interior. A large, glowing digital display in the center shows the time '20:00'. A small, white, humanoid figure is perched on top of the display. The lighting is dim, with some highlights on the ceiling and the display itself.

Unveiling the Challenges

Exploring the Pain Points of Time Tracking

Show us your World

What are your pain points?
Which one causes the biggest pain?

Exploring the Pain Points of Time Tracking

EU Court Mandate

- ★ All EU countries must implement a system for measuring daily working hours for employees.

Compliance Challenges

- ★ Companies face difficulties aligning with local laws and regulations of different countries.

Complex Administrative Processes

- ★ Managing sick leave, approvals, and holidays becomes complicated and time-consuming.

Lack of Absence Overview

- ★ It's challenging to keep track of team or department absences, leading to reduced visibility.

Multiple Logins

- ★ Implementing another time-tracking solution adds the hassle of using a separate login system.

Expectations

Employee

- ★ Seeks timely and relevant information
- ★ Values user-friendly and intuitive usability
- ★ Prefers efficiency over dealing with administrative tasks

Employer

- ★ Easy usability to manage team / company
- ★ Transparency of data
- ★ Quick overview

Time for a Change

A large, glowing digital clock is the central focus, set against a dark, futuristic background. The clock's numbers are illuminated with a soft, blueish-white light. On top of the clock, a small figure of an astronaut in a white suit is perched. The background features architectural elements like beams and pipes, suggesting a high-tech or space-themed environment.

Towards an Efficient World

Time Tracking Has Never Been so Easy

Improve Employee Satisfaction

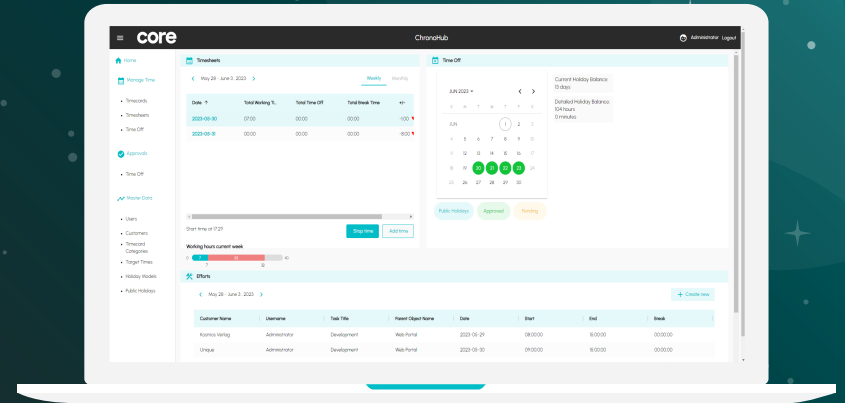

- ★ Real-time time tracking and absence management enhance employee satisfaction.

Streamline Processes

- ★ Utilize a user-friendly web solution to streamline processes effectively.

Increase Efficiency

- ★ Benefit from predefined options for calendars and work time models to boost efficiency.

The Game Changers: Overview Key Features

Time Tracking

- ★ Recording of working hours, efforts, breaks, and absences
- ★ Set up country specific calendar

Effort Management

- ★ Document and monitor employees' activities
- ★ Single-Sign-On (SSO) possibility

Recording Report

- ★ Timesheets: Keep track of time recordings and efforts
- ★ API for integration into other solutions

Approval Process

- ★ Submit, evaluate, and authorize time-off requests
- ★ E-mail notification of pending and approved requests

Key Features

★ Time Tracking: Record of Working Hours, Efforts, Breaks, and Absences

Reach for the Stars

A large digital clock is the central focus, set within a dark, futuristic space station environment. The clock displays '20:00' in a large, glowing, 3D-style font. The '0' in the middle is replaced by a detailed image of the moon's surface. Perched on the top edge of the clock's frame is a small, white astronaut figure in a full space suit. The background shows the interior of a space station with metallic walls, pipes, and structural beams, all dimly lit.

Together

Releasing the Pain Points of Time Tracking

EU Court Mandate

★ ChronoHub is meeting the EU rules for tracking employee working hours.

Compliance Challenges

★ Easily adjust the calendar to match different countries and states with just a few clicks.

Complex Administrative Processes

★ ChronoHub's intuitive dashboard and interface make the platform effortlessly user-friendly.

Lack of Absence Overview

★ Gain a quick and informative overview of the team's absences with an absence calendar.

Multiple Logins

★ No need of user names and logins, thanks to Single Sign-On (SSO).
